

Comskip S5 -3000

SMART EVOLUTION

ACCURATE PRECAST CASTING IN SMALLER VOLUMES

Elematic Comskip S5-3000 brings fast and accurate casting to your fingertips. It is an ideal choice for small volume concrete production and uses the same patented and highly appreciated technology as the Elematic Comcaster E9. Power supply is not an issue as Comskip can be battery-operated.

Elematic Comskip S5-3000 offers advanced technology for small volume concrete production. It includes all the key advantages Elematic casting machinery is famous for - but with even lower final operational cost.

Comskip S5-3000 features an adjustable casting nozzle for fast and accurate concrete dosing. A minimum amount of concrete goes into waste - leading into reduced material costs and short cleaning time. Comskip S5-3000 also offers flexibility of use as it can be used for different kinds of concrete mixes for precast products.

Elematic Comskip S5-3000 keeps noise levels in the working area on a low level. Comskip also features an internal concrete feeder and a well-designed mechanical structure which help keep factory floor clean. Simple push button control ensures ease of operation.

Comskip S5-3000 is easily adaptable to various types of production locations as it can be also battery-operated, either independently or alongside the existing machinery. Comskip S5-3000 can be added to an existing precasting process or put into use at a construction site.

FACTS

Facts about Comskip S5-3000

Water volume	3000 l
Skip diameter	2130 mm
Skip height	1955 mm
Height to the upper edge of the lifting bail	3123 mm
Concrete discharge opening diameter	150 mm
Weight	1080 kg

BENEFITS AT A GLANCE:

Fast and accurate casting

Adjustable casting nozzle ensures fast and accurate concrete dosing. A minimum amount of concrete goes into waste - which saves material costs and short cleaning time.

Easy to use with various kinds of concrete

Suitable for different kinds of concrete mixes as well as for self-compacting concrete (SCC).

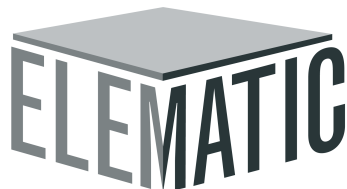

No need for separate power supply

Comskip S5-3000 is not dependent on electricity as a battery-operated version is available.

Elematic supplies precast concrete machinery and complete production plants for building construction worldwide. Elematic is the leading one-stop-supplier for precast concrete technology.

Our customers are in the business of floors, walls, frames, and foundations – some specialize in one area and some are active in all of them. Precast solutions for all needs – from small scale production plants to huge operations with the same high standards for structural and architectural design. We offer support throughout the entire life cycle, assisting our customers to achieve maximum profitability regardless of the investment level.

That's our offer.
