

FaMeFlex

SMART EVOLUTION

SUPERIOR SHUTTERING

The FaMeFlex system is a modular furnishing method for any steel surface, specially intended for the flexible production of precast products of just about any shape or size. Dimensions can be changed quickly and effectively, and intakes and outtakes of, for example, lifting hooks and reinforcing can be made freely without breaking the side molds. Precise dimensioning and straight side profiles ensure production of premium elements. FaMeFlex is a fully modular system. Start with a limited number of components and simply add more as your need grows. FaMeFlex-series has now solutions also for Battery molds and Steel sides.

With FaMe Flex, it is possible to furnish steel surfaces for elements of just about any shape or size, and change dimensions most effectively. FaMe Flex is the most efficient and flexible furnishing method for table molds as well as for battery molds, tilting tables or any other steel surface.

FACTS

Facts about FaMeFlex

Particularly intended for making up to 600 mm thick wall elements; façades, insulated sandwich walls, solid walls, etc.

Ideal for short and varied series of production

Not only walls - but also beam and column processes can utilize Elematic FaMe Flex

BENEFITS AT A GLANCE:

Effectivity and flexibility

FaMeFlex is the most efficient and flexible shuttering method for circulating tables as well as for battery molds, tiltign tables or any other steel surface. Not only walls - but also beam and column processes can utilize Elematic's FaMe. With the adapters, you can also use push-button magnets.

Particularly good for thick precast walls

The FaMeFlex are particularly intended for making up to 600 mm thick precast wall products; facades, insulated sandwich walls, solid walls ets.

Top quality products

The FaMeFlex ensure top quality precast products via precise dimensioning, staraight side profiles, precise 90-degree corners and much more.

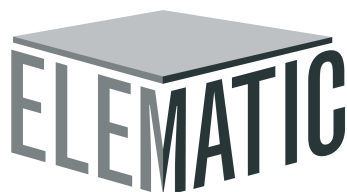

The mold stays intact

Intakes and out-takes of eg. lifting hooks and reinforcing can be made freely without breaking the side molds. No drilling is necessary, so the FaMeFlex is also ideal for short and varied production series. Flex magnets can also be placed freely to any desired point.

Elematic supplies precast concrete machinery and complete production plants for building construction worldwide. Elematic is the leading one-stop-supplier for precast concrete technology.

Our customers are in the business of floors, walls, frames, and foundations – some specialize in one area and some are active in all of them. Precast solutions for all needs – from small scale production plants to huge operations with the same high standards for structural and architectural design. We offer support throughout the entire life cycle, assisting our customers to achieve maximum profitability regardless of the investment level.

That's our offer.
