

Modifier E9-1200m

SMART EVOLUTION

TAILORED PRODUCT STRAIGHT FROM THE CASTING BED

Elematic Modifier E9-1200m enables the accurate production of tailored hollow-core slabs right on the casting bed. The machine not only places recesses, holes and other openings, but also the plots cutting lines – swiftly and precisely. It adds value for your customers while boosting the profitability of your operations.

Saves time, no mistakes

By doing modifications straight on unhardened slabs, Modifier E9-1200m saves considerable time otherwise needed for manually marking of cutting lines or making openings for lifting loop installations and through holes. This not only frees 1-2 workers from the process, but also effectively eliminates any mistakes arising from manual work.

Safe and multifunctional

By reducing the need for manual work shop floor safety is also improved. And because Modifier E9-1200m uses no water in drilling and digging, concrete removed from openings can be recycled back to production on line. The machine can be operated manually or automatically utilizing Elematic's positioning tools and information from ELIPLAN ERP.

FACTS

Facts about Modifier E9-1200m

Free travelling speed	0.7 m/s
Clearance under machine	520mm
Minimum size of opening/recess	100x140mm
Height (w/o waste container)	2300mm
Width	1680mm
Length	4200mm
Weight approx.	3100kg
Power supply	3P+PE,400V,50Hz
Connection power	65 kW

Facts about the end products

Slab dimensions	max. width 1200 mm height 500 mm
Minimum size of the recess	150 x 150 mm

BENEFITS AT A GLANCE:

Tailored slabs, superior quality

Recesses, water holes and other openings are swiftly produced to precise specifications straight on the casting bed – for all-round customer satisfaction.

Multifunctional and productive

The versatility and precision of the machine eliminate manual actions and mistakes, while also freeing 1-2 workers for other tasks.

A clean and happy shop floor

With less manual work to be done, your shop floor is kept tidy and clean – for a cleaner, safer and happier work environment.

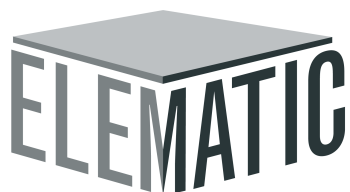

Low costs, long life

Modifier E9-1200m is known for its efficiency and endurance – ensuring low operating costs through the machine's long life.

Elematic supplies precast concrete machinery and complete production plants for building construction worldwide. Elematic is the leading one-stop-supplier for precast concrete technology.

Our customers are in the business of floors, walls, frames, and foundations – some specialize in one area and some are active in all of them. Precast solutions for all needs – from small scale production plants to huge operations with the same high standards for structural and architectural design. We offer support throughout the entire life cycle, assisting our customers to achieve maximum profitability regardless of the investment level.

That's our offer.
